#### ABOUT THE CCEE

The California Collaborative for Educational Excellence is a state agency created in 2013 under California's groundbreaking Local Control Funding Formula (LCFF). We offer personalized, immediate, and evidence-based support to county offices of education, school districts, and charter schools so they can take ownership in continually improving learning for all students.

The CCEE plays a key role in California's Statewide System of Support which acts like a safety net to help struggling districts and schools get back on track.
