CDE and CCEE announce selection of Special Education Systems Improvement Leads within State System of Support

SACRAMENTO — The [CA Collaborative for Educational Excellence](#) (CCEE) is a different kind of statewide agency that partners with the [CA Department of Education](#) (CDE) to help build the state's groundbreaking System of Support which is designed to provide as many resources and supports to school districts as possible so they can continually improve teaching and learning for all students.

The CCEE and the CDE are now pleased to announce the selection of Special Education Systems Improvement Lead Agencies which will serve a key role within the System of Support in building the capacity of SELPAs (Special Education Local Plan Areas) in counties across the state.

The SELPA Special Education Systems Improvement Lead Agencies are:

- [El Dorado County SELPA](#)
- [Riverside County SELPA](#)
- [West San Gabriel SELPA](#)

In addition to the SELPA Special Education Systems Improvement Leads, the Budget Act of 2018 also allocated funding to support SELPA Special Education Content Leads.

The SELPA Special Education Content Lead RFA is posted and can be [found here](#).

The CCEE and the CDE look forward to working side-by-side with each and every one of SELPA Leads to increase capacity of local educational agencies to meet the needs of students with disabilities in our schools.
