How might we leverage technology to support early literacy?

How could that look in:

- Whole group instruction?
- Small group instruction?
- Independent tasks?
- Assessment?
- REMOTE LEARNING?

Fluency is...
The ability to read text accurately and quickly.

Fluency is important because...
It frees students to understand what they read.

Fluency practice...
Is essential for students to bridge the gap between word recognition and comprehension.

Reading Fluency can be developed by...
Having students engage in repeated reading and modeled fluency reading.

Chapter Two
Changing Weather

Throughout fall, we feel the weather change from warm to cold. Our part of the planet gets the most sunlight during summer.

It gets the least sunlight during winter. Fall weather feels cooler than summer weather. Fall weather feels warmer than winter weather.

Animals notice cooler weather too. They get ready for winter during fall. Some animals grow thicker coats of fur. Others hide food so they can eat it later.
Fluency Fun

1. Choose one of your favorite books this week.
2. Choose several pages to read orally with accuracy and fluency. Watch this Fluency Video with your parent and discuss what a fluent 1st grade reader sounds like.
3. Can you try changing your voice to sound like a character in your book?
4. Record yourself reading using your best reading voice. (Remember… not too fast, and not too slow; you don’t want to sound like a robot voice.) Show us the title and author of the book you share with us!
