

Leveraging Distance Learning Plans to Support Blended Learning

June 22, 2020

CHECKING IN

Our meeting will start shortly.

Please complete the “Do Now” activity as we wait for everyone to sign in and check their equipment.

Do Now: → Please share your name and organization in the chat.
→ Also share one thing you are looking forward to taking away from this meeting.

Here's What I Know...

Students may...

- Need remediation and reteaching
- Be dealing with anxiety, trauma, and depression
- Be craving connection with peers
- Need to learn, at least part time, online

What will the 2020-2021 school year look like?

Face to Face

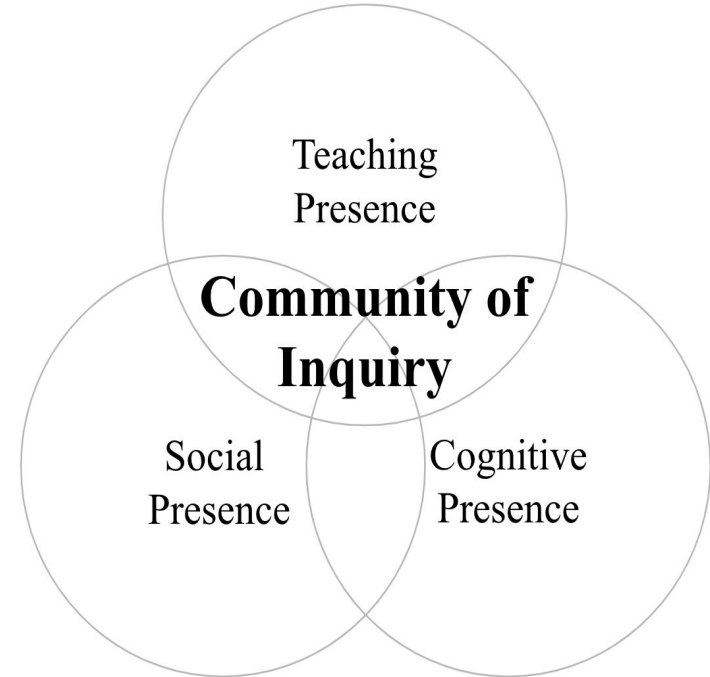

Blended Learning

Online Learning

Theoretical Framework for Online & Blended Learning

- Developed to understand the unique nature of teaching & learning online
- Grounded in constructivist principles
- Prioritizes the role of the learner and learning community in constructing knowledge
- Positions students as active agents and teachers as designers, facilitators, and instructors

(Garrison, Anderson & Archer, 2000; 2001; 2003; 2010)

Blended Learning

Word Association: What do you think of when you hear "blended learning"?

K-12 Definition of Blended Learning

Blended learning at the K-12 level is defined as,

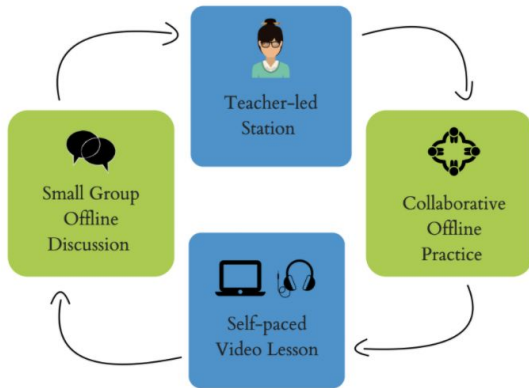

A formal education program in which a student learns at least in part through online delivery of content and instruction with some element of student control over time, place, path, and/or pace and at least in part at a supervised brick-and-mortar location away from home. (Staker & Horn, 2012, p. 3)

Blended Learning Simplified

Active engaged learning online combined with active engaged learning offline or face-to-face; different models give students different degrees of control over time, place, pace, and/or path.

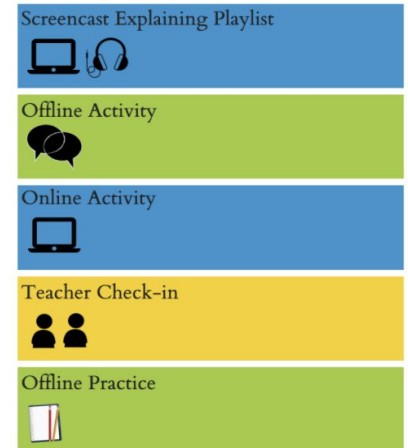

Station Rotation Model

Flipped Learning Model

Playlist Model

Benefits of Blended Learning

- Small learning communities
- Time to work directly with students
- Easier to differentiate
- Fosters communication and collaboration
- Allows for more student agency
- Positions students as active agent in learning process
- Shifts the focus from teacher to learner

The Station Rotation Model

The Station Rotation Model

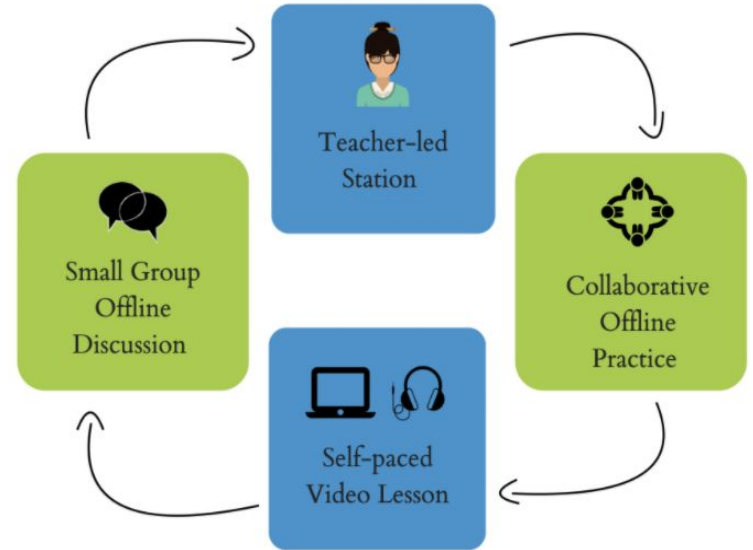

Small learning communities

Time to work directly with students

Make the most of limited technology

Easier to differentiate

Shifts the focus from teacher to learner

Online Collaborative Station

Teacher-led Station

Offline Collaborative Station

Teacher-Led Station

Small group instruction
Modeling

Flipped Learning Model

Benefits of Video

- Students control the pace at which they consume/process information
- Students and parents can access video instruction anytime/anywhere
- Students who transfer into the class late have access to the instruction they missed
- Teachers do not have to repeat the same explanation multiple times
- In the classroom, it frees the teacher to move around the room

Purpose of video...

- Transfer information (e.g., mini-lessons or lectures)
- Modeling (e.g., demonstrating a process, conducting a think-aloud, on-boarding students to a technology tool)
- Directions or how-to (e.g., step-by-step instructions about how to do a particular assignment or complete a task)
- Provide remediation

Designing a 3 Part Flipped Lesson

Pre-video

Flip & Engage

Post-video

Pique interest

Assess prior
knowledge

Drive inquiry

Transfer information

Drive higher-order
thinking around video
content

Student centered
application

Practice activities

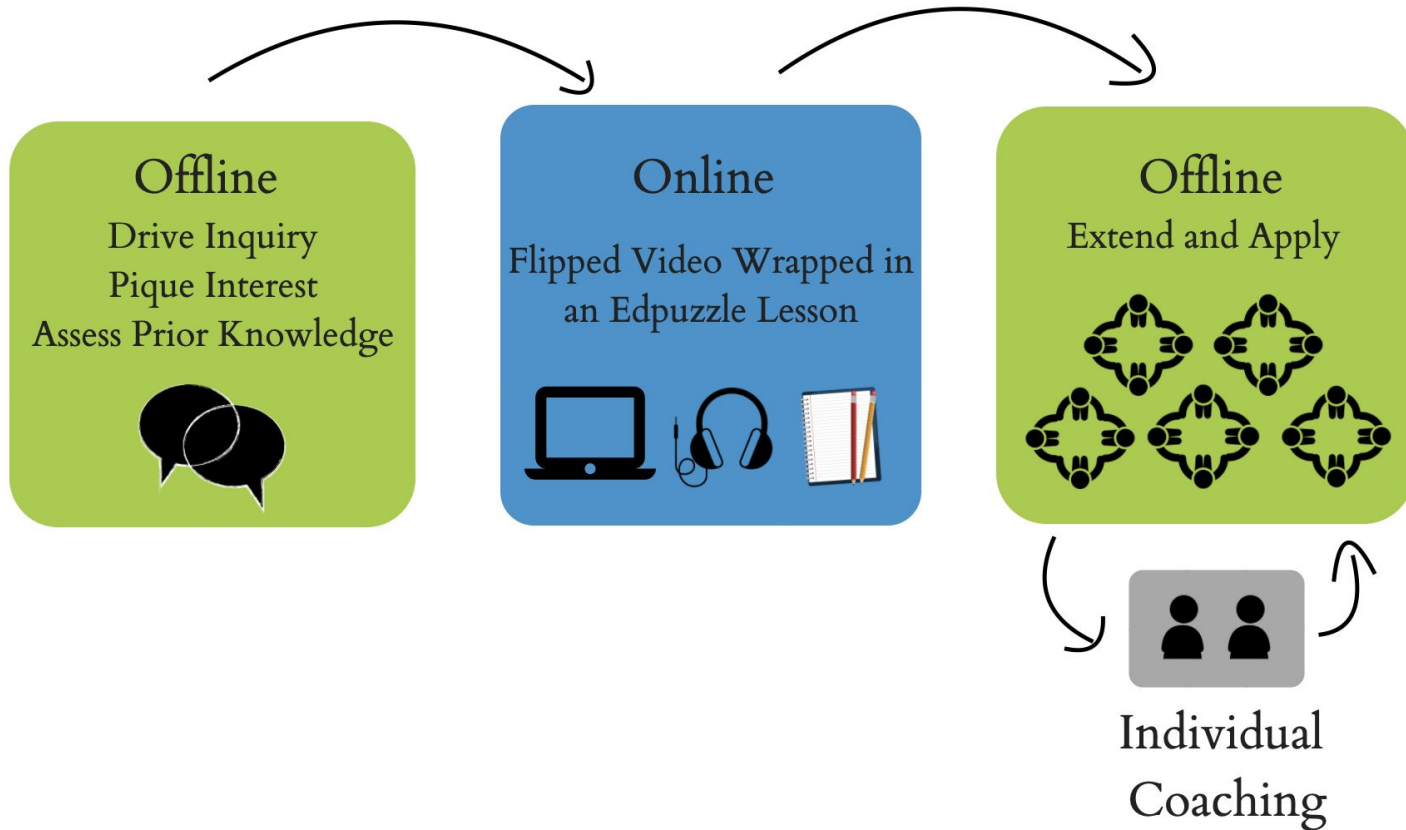

Whole Group Rotation

Flipped Vocabulary

What do you spend the most time talking at your kids about?

Whole Group Rotation

Step 1: Make Predictions

Step 2: Flip & Engage

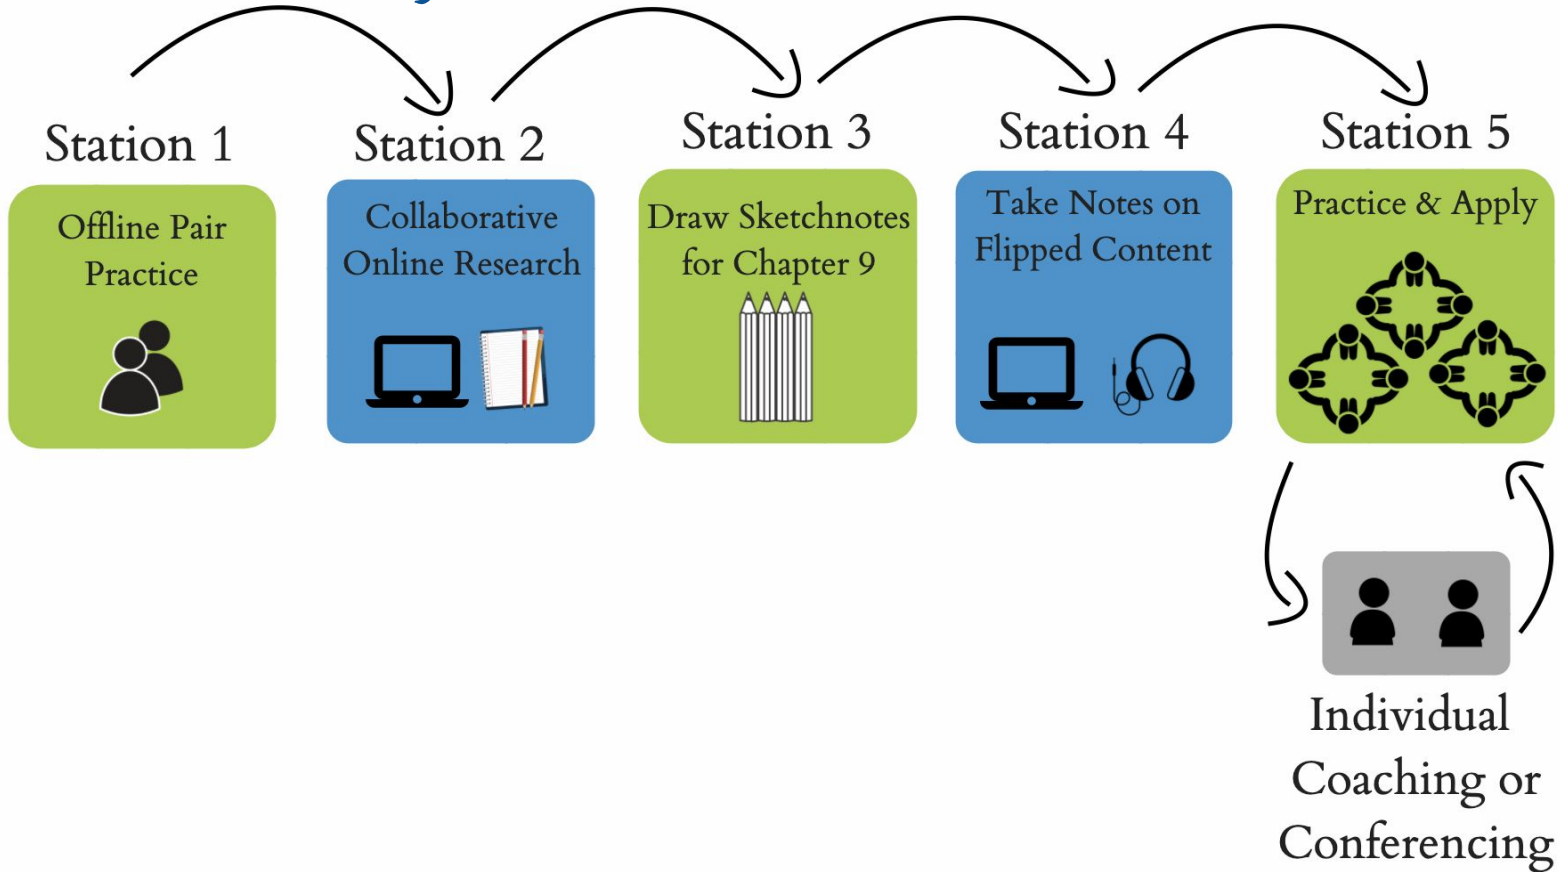

Step 3: Practice & Play

- o Recoil
 - o Sagacious
 - o Hamper
 - o Tranquil
 - o Vicariously
 - o Capricious
- PB & J sandwich
- home phone
- tutu

Flipped Learning + Station Rotation

Playlist/Individual Rotation Model

The Playlist Model

- Students control the pace of learning
- Path can be personalized to meet individual student's needs
- Mix of media and learning modalities
- Creates time for teachers to conference with students to discuss progress

Screencast Explaining Playlist

Offline Activity

Online Activity

Teacher Check-in

Offline Practice

Elements of a Playlist

- Direct instruction
- Recorded modeling sessions
- Offline activities
- Online quizzes
- Personalized practice
- Pair practice
- Conferencing
- Self-evaluation
- Side-by-side assessments

	<p>using the format introduced in the video.</p> <p>*If you need support as you write, come to Tucker's "Help Desk" for support.</p>		
<p>11) Edit: Grammarly</p> 	<p>Once you've completed your first body paragraph, copy and past your introduction and body paragraph #1 into Grammarly to check for spelling and grammatical errors.</p> <p>After you corrected the errors highlighted by Grammarly, proceed to Tucker Time.</p>		<p>Use technology to do some of the heavy lifting and teach students how to edit their own work.</p>
<p>Tucker Time</p> 	<p>Bring your computer to Tucker's "Help Desk" for edits on your body paragraph #1.</p>		<p>Use your help desk to identify what each individual learner needs then fill in the personalized focus below.</p>
<p>12) Personalized Focus: TBD</p> 			<p>Customize this activity based on the conversation above.</p>

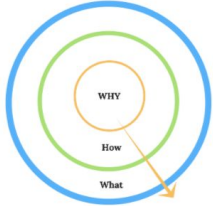

An awesome defense

Many animals try and eat pangolins!
But pangolins have an awesome
defense! They curl up in a ball of
armor. They have scales made of
cartilage. Cartilage is what our
fingernails are made of. The scales
are strongly attached so that they
don't fall off. Almost no animal can
pangolin.

Agency

<p>What?</p>	<p>Select the subject or topic</p> 	<ul style="list-style-type: none">• What does the student want to focus on?• Is there an aspect of the larger topic they are particularly interested in?• Can they select the lens they look through for a particular assignment?
<p>How?</p>	<p>Decide on the process</p> 	<ul style="list-style-type: none">• How will they complete the task?• What steps will they take?• Which tools will they use?• How will they track their own progress toward completion?
<p>Why?</p>	<p>Define the purpose and create a product</p> 	<ul style="list-style-type: none">• Why are they doing this work?• What is the purpose of a task, assignment, or project?• Given that purpose, what type of product do they want to create? How do they want to demonstrate learning?

Project Choice Board

Present a **TED Talk** to inspire others to take action.

Make a cartoon **movie** to help an audience to learn about the issue and your solution.

Build a **model** of an invention that could positively impact this issue.

Create a **poster** that uses visuals (e.g., pictures, charts, graphs) to help people understand the problem and your solution.

Design an **informative slideshow** to teach people about this issue.

Write a **children's book** to raise awareness about this issue.

Offline Activities Choice Board

Select, Engage, Document, Reflect + Share

<p><i>It's All Fun and Games</i></p> <p>Play a game—board game or card game—with your family members then design a rebranded cover for the game. The goal of your new cover is to appeal to people looking for a distraction while stuck at home.</p>	<p><i>Chopped: Home Edition</i></p> <p>Choose a recipe from a cookbook or create your own original recipe. Document the process of making your dish with drawings and notes on paper. Include details about ingredients, measurements, and the steps involved in making this dish.</p>	<p><i>The Perfect Playlist</i></p> <p>Compile a playlist for your current mood. Your playlist must have a minimum of 10 songs. Give your playlist a name, describe the overall vibe of your playlist and explain why you selected these specific songs.</p>
<p><i>Weird Science</i></p> <p>Design your own at-home science experiment using everyday household items. Begin with a question you want to answer. Write up a materials list and a step-by-step description of the procedure. Check-in with a parent for feedback on your proposed plan. Conduct your experiment and document what happens!</p>	<p><i>Jingle All The Way</i></p> <p>Think about an item or product in your home that has been unexpectedly useful while you have been stuck at home. Write a jingle that could be used in a commercial to advertise the benefits of this random item or product.</p> <p><i>*Bonus:</i> If you play an instrument, compose a musical score!</p>	<p><i>That's Comical</i></p> <p>Read an article in the newspaper or a chapter in a book and draw a comic strip to show what happened in that article or chapter. Bring the text to life with images and captions.</p>
<p><i>Build It and They Will Come</i></p> <p>Design your own Rube Goldberg machine that performs a simple task in an overly-complicated way. If you need to see an example or just need some inspiration, watch this!</p>	<p><i>Let the Dancing Begin!</i></p> <p>Imagine you are entering the 2020 Tik Toc Dance Challenge. Select a song and design dance moves to go with that song. Practice your moves and teach a parent or sibling your dance.</p>	<p><i>Look and You Will Find</i></p> <p>Create a themed scavenger hunt. Choose your favorite sport, movie, book, or subject in school and use that as inspiration to create a scavenger hunt with clever clues. Once you've created your scavenger hunt, invite someone in your family to try and figure out your clever clues!</p>

Teaching Presence

- Teacher roles and responsibilities
 - Design
 - Instruction
 - Facilitation
- 'Binding element' of online learning communities
- Provides leadership in K-12 online learning environments

(Garrison, Anderson & Archer, 2000; 2001; 2003; 2010)

Advice

Build your “technology toolbox”

Organize your virtual classroom

Proactively build a learning community online

Use technology and online learning to replace and improve

Ask for feedback from your students

Be patient with yourself and your students

Build a personal learning network to stay inspired
