SIR Progress Monitoring Report

**PURPOSE** The purpose of this Systemic Instructional Review (SIR) Progress Monitoring Report is to provide the district and its stakeholders an update on the district’s progress in implementing the SIR report actions. This progress monitoring report will be updated and available twice a school year (fall/spring).

**BACKGROUND** In December 2019 the district met the criteria for support outlined in Educational Code 52064.5, where three or more student groups have not made progress for 3 out of 4 consecutive years. As a result, the CCEE conducted a Systemic Instructional Review that results in a SIR Report that outlines the strengths, weaknesses, threats, opportunities, and recommended actions.

**WHAT IS THE SIR?** The SIR is a comprehensive PK-12 academic and social-emotional assessment of the district’s instructional systems and progress of state requirements. Learn more about the SIR and view your districts’ full SIR Report and Executive Summary.

**SIR Instructional Components**

**KEY**

- Not Started
- In Progress
- Completed
6. **Student and Family Engagement (3 actions)**

**Objective:** The school district practices two-way communication that reflects the cultural and linguistic needs of families in the community. The district uses resources and activities to promote student leadership and organizes active family and community engagement.

7. **School-based Instructional Leadership Teams (2 actions)**

**Objective:** Every school in the district has educators organized into Instructional Leadership Teams that focus on professional learning and make culturally responsive, data-driven decisions to design instruction for all students.

8. **Administrative Coaching and Leadership (3 actions)**

**Objective:** The school district has systems in place across the district to support, promote, and enhance a collaborative culture for administrator effectiveness in management and instructional leadership.

9. **Professional Learning and Coaching (4 actions)**

**Objective:** The school district has a data-driven professional learning plan focused on effective teaching methods that improve student academic, social-emotional, and behavioral learning.

10. **Data Management and Use and Student Information Systems (3 actions)**

**Objective:** The school district effectively uses a student information system that stores and tracks all student data, including grades, attendance, and discipline.

11. **District and Leadership Capacity (5 actions)**

**Objective:** The school district has a multi-level organizational structure that ensures goals related to the district’s overarching mission and vision are aligned. Each member of the school and district leadership is supported in fulfilling their role.

12. **Governance Support with Instruction (2 actions)**

**Objective:** The school district’s governing board has clearly established written policies, processes, and protocols to help implement robust instructional practices and educational supports for every student.
