# Welcome

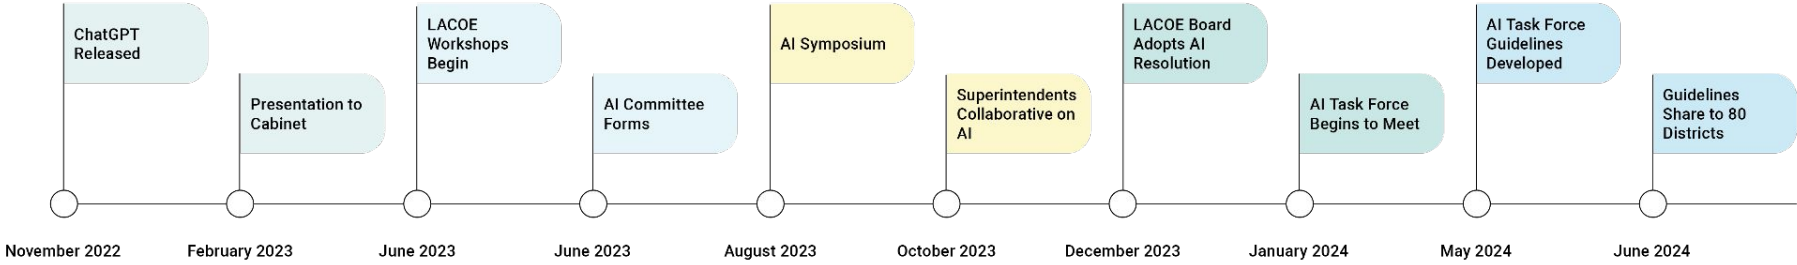

**James McKenna**

Assistant Director,  
Professional Learning and  
Leadership Development

- Recording & slides will be posted on [CCEE's website](#)
- Slides will be linked in the chat
- **Questions/Comments:** Please use the Q&A or “Raise Hand” features

# Timeline

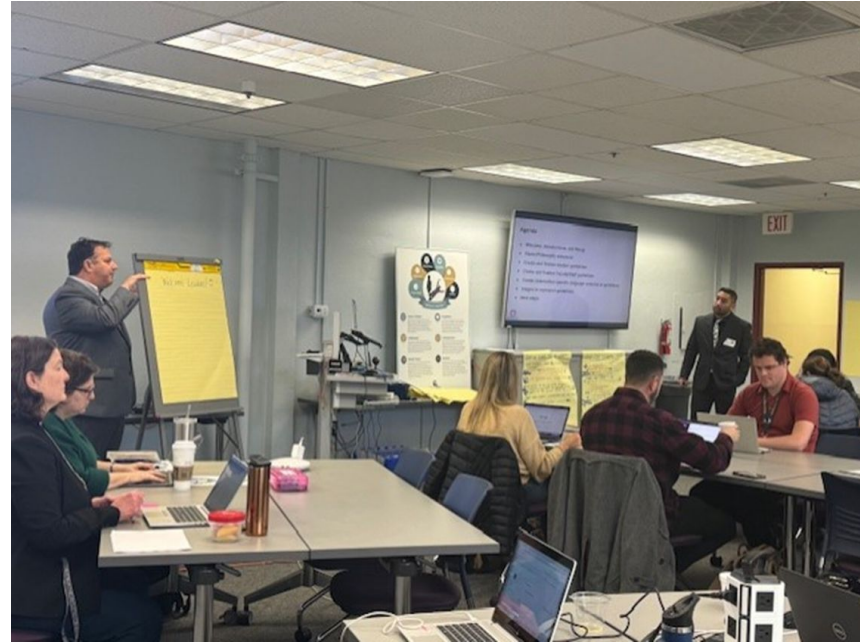

# The Need for AI Guidance

The rapid advancement of AI and machine learning technology has led to widespread use of AI systems across many sectors, including education. There is a need to develop guidelines and best practices around the ethical and responsible development and use of AI in schools.

# SUPPORTING LA COUNTY'S 80 DISTRICTS

- AI Symposium
- AI focused Superintendents' Collaborative
- Ongoing Professional Development Opportunities
- Train-the-Trainer Model
- Participating in district task forces, PDs
- Facilitating conversations
- Sharing information through social media, podcasts, videos, website and other channels

# AI Task Force

## **Purpose and Goals:**

Develop and produce guidelines to support LA County's LEAs in the responsible and ethical use of AI.

## **Progress:**

- Survey has been sent out
- Guidelines in development

## **Members:**

- Students
- Classroom Teachers
- School Administrators
- District Administrators
- Non-profits
- Businesses.

## **End Game**

- Understanding of the region's needs
- Guidelines
- Resources
- Targeted professional development
- Communication tools

# AI Survey

## LACOE + Project Tomorrow

The Los Angeles County Office of Education is conducting a needs assessment survey on artificial intelligence to understand stakeholders' perspectives. The online survey collects input from students, teachers, administrators, and community partners.

<https://www.tomorrow.org/lacoeairesearch>

# Advice for Replication

- Focus on student needs
- Consult stakeholders early and often
- Take an iterative approach
- Develop guidelines and policies
- Provide extensive training

# Ethical AI

- Access
- Equity
- Bias
- Privacy
- Data Security
- Transparency

# Thank You
