

# RELAUNCHING PROFESSIONAL LEARNING COMMUNITIES

Hosted by Madera County Superintendent of Schools

September 3 - 4, 2024  
8:00am - 3:30pm  
Breakfast 8:00am - 8:30am

Madera County Superintendent  
of Schools, Conference Center  
1105 South Madera Avenue, Madera, CA 93638

## What is Relaunching PLCs?

The Professional Learning Communities at Work® (PLC) process is increasingly recognized as the most powerful strategy for achieving sustained, substantive school improvement. Over two days, you will focus on the foundational knowledge and skills necessary to become a successful PLC and implement it with fidelity, with a key focus on fostering a positive, inclusive, and nurturing school culture.

### THREE BIG IDEAS OF A PLC AT WORK®

1. A focus on learning
2. A collaborative culture of shared responsibility
3. A results orientation

### FOUR CRITICAL QUESTIONS OF A PLC AT WORK®

1. What do we want our students to learn?
2. How do we know if they have learned it?
3. How will we respond when our students don't learn?
4. How we will respond when our students do learn?

### WHAT'S INCLUDED

- Lessons from expert presenters and educators who have led PLC at Work® schools
- Two days of in-person professional development
- Dedicated team time to work on action steps
- Practical tools, protocols, and resources to implement immediately
- Participants will receive a copy of the bestselling book *Learning by Doing, 3rd Edition*
- Breakfast & Lunch provided

#### W. Richard Smith

Keynote speaker W. Richard Smith is former deputy superintendent of Sanger Unified School District in California. He has been involved in public education for more than 37 years.

#### Kim Bailey

Kim Bailey is former director of PD and instructional support for Capistrano Unified School District in California. She also served as an adjunct faculty member at Chapman University.

#### Matt Devan

Matt Devan is director of school support and improvement for Montgomery County Public Schools in Maryland. He provides guidance and feedback to schools as they develop PLCs.
