Leading with Clarity: How Health and Attendance Guidance Drives School Success

Session Three of the Chronic Absenteeism Bright Spots Series

November 19, 2024

Welcome

Sujie Shin

Deputy Executive Director,
CCEE

- Recording & slides will be posted on CCEE's [website](#)
- Slides will be linked in the chat
- Chat comments are only visible to presenters
- **Questions/Comments:** Please use the Q&A feature

Agenda

- **Introduction & Background**
 - What is chronic absence and why does it matter?
- **The Link Between Health and Attendance**
 - How does health guidance matter for attendance?
- **Panel Discussion with Livingston Union School District**
 - Panelists/LEAs
 - Practical Tools
- **Q&A**
- **Closing**

Zoom Poll

What is your role?

- District Administrator
- School Principal
- Teacher
- Counselor
- Social Worker
- Parent
- Psychologist
- Nurse
- Attendance Clerk
- School Office Manager
- Other

What is Chronic Absence?

And why does it matter?

Chronic absence is defined as **missing 10 percent or more of school for any reason**. Chronic absence can put students academically at risk as well as hurt their socioemotional well-being.

Chronic absence is different from **truancy** (unexcused absences only) or **average daily attendance** (how many students show up to school each day).

What Does the Data Show?

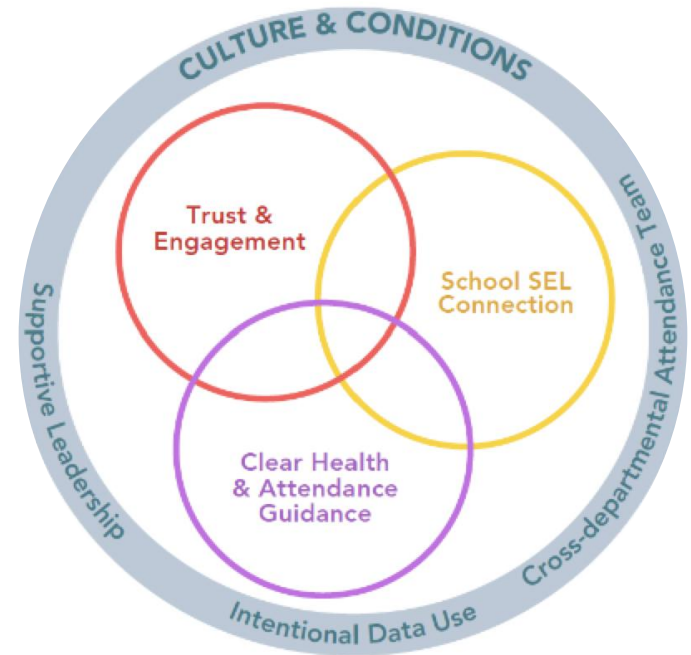

National and State Data

What We Learned From Our Bright Spots

3 Key Approaches

- Intentional focus on **building trust and engagement between schools and families** that everybody “owns”
- **Embedded** strategies to help **students connect emotionally** to their schools and peers
- **Clear guidance** for parents, children, and staff on policies for absences while supporting health & well-being

Bright Spots Factsheet

Attendance Achievers: Effective Strategies that Set Bright Spot Districts Apart

Despite these alarming increases, we identified 20 districts with significantly lower chronic absenteeism rates.

Our Bright Spots research aimed to discover why rates were lower in three such districts: Livingston Union, Cypress School District and Kings Canyon Unified. Through in-depth site visits, we documented approaches and conditions that collectively help inform ways to get more kindergartners back into the classroom and ready to learn.

Kindergarten Chronic Absenteeism Rates in Bright Spots Districts Compared to the State

	State	Livingston	Cypress	Kings Canyon
2019	15.6%	6%	5.9%	9.6%
2023	36.3%	28.1%	22.8%	26.7%

Across all three districts, we found a set of common conditions that supported successful approaches to reducing absenteeism:

Culture & Conditions

A cross-departmental attendance team led by a principal who is an accountable leader who takes full responsibility for results and actions, irrespective of the outcome: Each district and school employs an attendance team model that has "synergy" and open lines of communication about which students and families are in need of support to overcome barriers to attendance. School leaders set the tone, advocating for and enacting conditions for success.

Intentional and strategic use of data in real time to drive decision making: Attendance data is shared openly and used in real-time to proactively diagnose and target outreach to students and families needing additional support.

Clear Health Attendance Guidance and Its Link to Attendance

Students facing significant struggles with their physical, emotional, and mental health are more likely to miss school.

- A [range of physical conditions](#) can lead children to miss school with [asthma](#) being one of the leading drivers of health-related absences.
- Students who struggle with mental health issues, like anxiety and depression, are more likely to [avoid going to school](#).

Clearer messaging about when to send children to schools when they are sick can help avoid confusion among parents.

County and District Overview

Chronic Absenteeism

	State	Merced County	Livingston Union
2019	16.2%	14.9%	6.0%
2023	37.8%	35.0%	28.1%

Kindergarten chronic absenteeism rates in Livingston Union School District compared to Merced County and the State.

Demographics

	Merced County	Livingston Union
Enrollment	58,839	2,545
SED	79.9%	79.1%
EL	23.6%	39.6%
SWD	12.4%	9.0%

Panel Discussion

Livingston Union School District

Stella Montanez

Principal,
Selma Herndon Elementary

Lori Morgan

Nurse,
Livingston Union School
District

Maria Torres-Perez

Director of Categorical
Programs & Special Projects,
Livingston Union School
District

Question 1:

How does adult **health** and **well-being** impact the school culture and environment?

Question 2:

How do you promote consistent communication around **health** and **attendance**?

Question 3:

How do you use student attendance and health **data to inform** the way you approach **communications** with families?

Question 4:

What **advice** do you have for schools or districts that might not have **full-time nurses**?

A young girl with dark curly hair, wearing a blue and white striped tank top, is sitting at a desk in a classroom. She is smiling and has her right hand raised high in the air. In her left hand, she holds a blue pen over an open notebook. Other students are visible in the background, some with their hands raised. The image has a blue overlay and decorative yellow and teal bars at the top and bottom.
