

WORKSHOP

VISUAL IMPACT

Learn the art of creating clear, compelling, and impactful data visualizations. This hands-on workshop, led by internationally recognized expert Stephanie Evergreen, will guide educators and analysts in transforming data into visuals that inspire action and support student success.

DATA VISUALIZATION WORKSHOP

Explore the elements that make visualizations effective, from clarity and accuracy to storytelling with data.

Date: Tuesday, January 20, 2026

Time: 9:00am - 12:00pm

Location: Zoom

FOLLOW -UP SESSION & OFFICE HOURS

HOW TO CREATE THOSE VISUALIZATIONS

This session will share tools and techniques for creating visualizations and is only open to participants of the first workshop.

Date: Tuesday, February 17, 2026

Time: 9:00am - 11:00am

Location: Zoom

OFFICE HOURS WITH STEPHANIE EVERGREEN

Receive feedback on your visualizations from Data Academy, LEA projects, or other work. Office hours are only open to those attending both the first workshop and the follow-up session.

Date: Friday, February 27, 2026

Time: 9:00am - 11:00am

*Limited number of short office hour sessions will be available.
