

We Need your Perspective

As we consider what California students will need to succeed and thrive in a rapidly evolving world, your input is essential. Help us build a system that prepares all students for the future of their choosing.

Take the 2-Minute Survey.

In addition to the survey effort, the state board will be collecting feedback from in-person and virtual conversations with a diverse set of stakeholders. [Click here](#) to learn more about this effort or get in touch with the State System of Support.

HELP SHAPE CALIFORNIA'S EDUCATIONAL FUTURE

PORTRAIT OF A GRADUATE/LEARNER COMMUNITY SURVEY

Why your input is critical?

The world is changing rapidly. Knowledge is exploding, technologies are evolving, and an estimated **30% of jobs will be eliminated or dramatically changed by AI in just the next 5 years.**

To prepare our children for this future, the State Board of Education is developing a **Portrait of a Graduate/Learner** to communicate it's vision of what every California student should know and be able to do when they leave school.

What is a Portrait of a Graduate/ Learner?

Eighteen states and many California districts have created Portraits that emphasize skills like critical thinking, collaboration, communication, and creativity. These serve as a North Star to guide the following decisions:

- ☒ Curriculum
- ☒ Assessment
- ☒ Accountability

Important to Know:

Any Portrait adopted by the State Board **would NOT create new requirements for local school districts.** It would solely inform and guide the State Board's own decision-making and policy about curriculum, assessment, and accountability.
